CONDITIONS OF SALE

I. Rejection of bids: Any bid which is not commensurate with the value of the article offered or which is merely a nominal or fractional advance may be rejected by the auctioneer if in his judgment such bid would be likely to affect the sale injuriously.

II. The buyer: The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the auctioneer shall either decide the same or put up for re-sale the lot so in dispute.

III. Identification and part payment by buyer: The name of the buyer of each lot shall be given immediately on the sale thereof, and when so required, each buyer shall sign a card giving the lot number, amount for which sold, and his or her name and address.

Payment at the actual time of the sale shall be made of all or such part of the purchase prices as may be required.

If the two foregoing conditions are not complied with, the lot or lots so purchased may at the option of the auctioneer be put up again and re-sold.

IV. Risk after purchase: Title passes upon the fall of the auctioneer's hammer and thereafter neither the consignor nor the Association is responsible for the loss or any damage to any article occasioned by theft, fire, breakage or any other cause.

V. Delivery of purchases: Delivery of *any* purchases will be made only upon payment of the total amount due for *all* purchases at the sale.

Deliveries will be made at the place of sale or at the storage warehouse to which purchases may have been removed.

Deliveries at the American Art Galleries will be made only between the hours of 9 A. M. and 1 P. M. on sales' days and on other days—except holidays, when no deliveries will be made—between the hours of 9 A. M. and 5 P. M.

Deliveries at places of sale other than the American Art Galleries will be made only during the forenoon following the day of sale unless by special notice or arrangement to the contrary.

Deliveries at the storage warehouse to which goods may have been sent will be made on any day other than holidays between the hours of 9 and 5.

Deliveries of any purchases of small articles likely to be lost or mislaid may be made at the discretion of the auctioneer during the session of the sale at which they were sold.

VI. Storage in default of prompt payment and calling for goods: Articles not paid for in full and either not called for by the purchaser or delivered upon his or her order by noon of the day following that of the sale will be turned over by the Association to some carter to be carried to and stored in some warehouse until the time of the delivery therefrom to the purchaser, and the cost of such cartage and storage will be charged against the purchaser and the risk of loss or damage occasioned by such removal or storage will be upon the purchaser.

NOTE: The Limited space of the Delivery Rooms of the Association makes the above requirements necessary, and it is not alone for the benefit of the Association, but also for that of its patrons, whose goods otherwise would have to be so crowded as to be subject to damage and loss.

VII. Shipping: Shipping, boxing or wrapping of purchases is a business in which the Association is in no wise engaged, and will not be performed by the Association for purchasers. The Association will, however, afford to purchasers every facility for employing at current and reasonable rates carriers and packers; doing so, however, without any assumption of responsibility on its part for the acts and charges of the parties engaged for such service.

VIII: Guaranty: The Association exercises great care to catalogue every lot correctly and endeavors therein and also at the actual time of sale to point out any error, defect or imperfection, but guaranty is not made either by the owner or the Association of the correctness of the description, genuineness, authenticity or condition of any lot and no sale will be set aside on account of any incorrectness, error of cataloguing or imperfection not noted or pointed out. Every lot is sold "as is" and without recourse.

Every lot is on public exhibition one or more days prior to its sale, and the Association will give consideration to the opinion of any trustworthy expert to the effect that any lot has been incorrectly catalogued and in its judgment may thereafter sell the lot as catalogued or make mention of the opinion of such expert, who thereby will become responsible for such damage as might result were his opinion without foundation.

IX. **Buying on order:** Buying or bidding by the Association for responsible parties on orders transmitted to it by mail, telegraph or telephone will be faithfully attended to without charge or commission. Any purchases so made will be subject to the foregoing conditions of sale *except* that, in the event of a purchase of a lot of one or more books by or for a purchaser who has not through himself or his agent been present at the exhibition or sale, the Association will permit such lot to be returned within ten days from the date of sale and the purchase money will be refunded if the lot in any manner differs from its catalogue description.

Orders for execution by the Association should be written and given with such plainness as to leave no room for misunderstanding. Not only should the lot number be given, but also the title, and bids should be stated to be so much for the lot, and when the lot consists of one or more volumes of books or objects of art, the bid per volume or piece should also be stated. If the one transmitting the order is unknown to the Association, a deposit should be sent or reference submitted. Shipping directions should also be given.

Priced Catalogues: Priced copies of the catalogue or any session thereof, will be furnished by the Association at charges commensurate with the duties involved in copying the necessary information from the records of the Association.

The article goes on to say that Washington bought the shells and had them made into "concave buttons" with a silver drop in the center hiding the spot where the eye is fastened beneath. "The President then astonished the republican court by appearing in a coat with pink conch-shell buttons sparkling on its dark velvet surface," and Capt. "Item: I give to my grandson, James, my watch and the gold

[No. 213—*Continued*]

Note: A certified copy of the will of George Corbin Washington, dated 20 June, 1866, with revenue stamp attached, will be delivered to the purchaser of the above described watch. It also is accompanied with an original letter written throughout in the hand of General Joseph E. Johnston, C.S.A., on whose military staff Major James Barroll Washington served as an aide-de-camp, as follows:

"Baltimore, Nov. 30th, 1867.

"CONWAY M. JENKINS, Esqr.

"Dear Sir: At the request of Mr. James B. Washington now of this city, I write to say that I know him to be the person referred to in the will of his grandfather, George C. Washington, as devisee of a Gold Watch and chain. Having known the grandfather, and being intimate with the devisee, James B. Washington, and his father, Lewis Washington, I can testify positively.

"Most respectfully,

"Your obt. Ser't,

"J. E. JOHNSTON."

Shortly after the above letter was written, James Barroll Washington disposed of the watch-chain and two seals of lesser importance which also he had inherited, and retained the above described watch, seal and key, which, prior to his death in 1900, he gave to his eldest son, the present owner, who also will deliver to the purchaser his statement, made under affidavit, setting forth the facts as above outlined.

It may be stated without fear of contradiction that no relic of General Washington, nor one more intimately connected with him, nor more thoroughly authenticated by documentary evidence, is in existence.

It is known that General Washington owned two gold watches. The above described watch is one. The other he gave to another nephew, Bushrod Washington, Justice of the Supreme Court of the United States, to whom he also devised Mount Vernon. Bushrod Washington devised this watch, under the fourteenth provision of his will to "His friend," Robert Adams of Philadelphia.
